H) Reading Comprehension: Read the following passage and then answer the questions.

Scott works at the supermarket. His schedule **rotates** every week, so one week he goes into work in the morning and opens up the store, and the next week he'll go there in the afternoon and close up the store at night. He doesn't particularly like his work. He finds it boring most of the time, doing the same thing every day. He likes his boss, but he's not really friend with any of his co-workers. He likes helping customers, and he knows some of them personally, but some customers treat him badly, which upsets him. During his coffee and lunch breaks, he usually puts on his headphones and listens to English lessons. He's convinced that if he learns to speak English well, he can get a better job working in the office of his best friend's dad, which does a lot of business in North America. Since Scott lives in a beach town with lots of tourists, he tries to practice English at work with all of the foreign customers who go into the store. He knows he has a lot to learn, but his pronunciation is improving and the customers appreciate having someone who can answer their questions. Usually they ask him what the different words on the package labels mean, but sometimes they talk to him about the town and about the weather. Of course, Scott's boss wants Scott to keep working at the supermarket because he's the only person who can speak English.

Chess is called the game of kings. It has been around for a long time. People have been playing it for over 500 years. Chess is based on an even older game from India. The chess we play today is from Europe.

Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. The players take turns moving their pieces. If a player lands on a piece, he or she takes it. The game ends when a player loses his or her king. There are a few more rules, but those are the basics.

Some people think that chess is more than a game. They think that it makes the mind stronger. Good chess players use their brains. They take their time. They think about what will happen next. These skills are useful in life and in chess. Chess is a kind of work out for the mind.

You don't always have lots of time to think when playing chess. There is a type of chess with short time limits. It's called blitz chess. In blitz chess, each player gets ten minutes to use for the whole game. Your clock runs during your turn. You hit the time clock after your move. This stops your clock. It also starts the other player's clock. If you run out of time, you lose. Games of blitz chess are fast-paced.

Chess is not just for people. Computers have been playing chess since the 1970s. At first they did not play well. They made mistakes. As time went on they grew stronger. In 1997, a computer beat the best player in the world for the first time. It was a computer called Deep Blue. Deep Blue was big. It took up a whole room. By 2006 a cell phone could beat the best players in the world. Chess sure has come a long way. Don't you think so?

35. What is the author's purpose in writing the second paragraph?
 - a. To explain the rules of chess
 - b. To compare different types of games
 - c. To talk about game pieces
 - d. To persuade people to play chess
36. How long have people been playing chess?
 - a. Over 100 years
 - b. Over 500 years
 - c. Over 1000 years
 - d. Over 5000 years
37. Where did the game that chess is based on come from?
 - a. Europe
 - b. America
 - c. India

38. How does a game of chess end according to the text?
 - a. One player loses his or her king.

39. Which happened first?

Reading: Read the passage and answer the questions.

It is very important for us to respect our elders. It is also important to note that elders were not born elders; **they** were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as they are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So it is our duty to help them when they need us because they are not young enough to handle things on their own like before.

51. What do elders have to share with us?

52. Why is it important for us to respect our elders?

Q. Read the passage. Then answer the following questions.

It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: Their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as they are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So, it is our duty to help them when they need us because they are not young enough to handle things on their own like before.

In the last three hundred years, more than seven hundred such languages have been suggested. The most successful and the most popular of <u>these</u> is a language called Esperanto. It was invented by Ludwig Zamenhof, who lived in Poland. When he was growing up, he saw that people from different backgrounds who lived in Poland had lots of difficulties communicating with each other. This often led to disagreements. Ludwig felt that a common language would help them understand each other better and agree with each other. So he began working on a common international language. He started his work while he was still at school! In 1887, he published some information about his new language. He did not use his real name. He used the name Dr. Esperanto (which means "one who hopes"). Soon people from all over the world became interested in his language, called Esperanto. Today, Esperanto is spoken by about eight million people throughout the world. Many governments and international organizations recognize it in many ways. Esperanto is often used on radio broadcasts from official government stations.</p> <p>Questions:</p> <p>29. Who invented Esperanto?</p> <p>29. -----</p> <p>30. ۲	<p>متن زیر را بخوانید و موارد خواسته شده را انجام دهید.</p> <p>Shopping used to be my favorite activity in my childhood. When I got a job in an office I carried on spending all my extra money on clothes-even after I had got married(ازدواج کردن), bought a house and had children. In many cases, I bought the things which I didn't really need them! I realized I had a problem when my five-year-old daughter looked into my wardrobe(جا لباسی) and asked me why I had so many handbags. I counted(شمردن) them. I had twenty five handbags and <u>actually</u> they must have cost me thousands of pounds. I couldn't believe what I'd done!First of all, I threw away my credit card. Then I gave away all the clothes that I'd never worn. ۱۲	<p>Read the following passage and answer the questions that follow.</p> <p>A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio'</p> <p>('saying'). There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages.</p> <p>Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. A word like 'right' has several meanings in English, for example, 'correct' and 'the opposite of left'. A word like 'present' may be used as an adjective, meaning 'not absent', as a noun, meaning 'gift' or as a verb, meaning 'give'. Words with different meanings exist in other languages, too. A good dictionary lists all the meanings of words to help people find the meaning that they look for. A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like 'pajamas', 'bazaar' and 'paradise' entered English from Persian.</p> <p>True or False?(۱p)</p> <p>۱. A word starting with 'p' appears before a word starting with 'm' in a dictionary. (.....)</p> <p>۲-Some dictionaries do not give users the meaning of words. (.....)</p> <p>Answer the following questions:(۳p)</p> <p>۱-Why can we find words in a dictionary easily?</p> <p>.....</p> <p>۲-What is the difference between technical dictionaries and biographical ones?</p> <p>.....</p> <p>.....</p> <p>۳-What is the origin of the word 'dictionary'?</p> <p>.....</p>	۴

H. Reading Comprehension :

Running is excellent exercise. Before you start running, you should warm up first, using slow movements that make all your muscles work. But be careful! If you stretch when your muscles are cold, you might do yourself an injury. Always wear comfortable clothing and make sure your trainers (shoes) are in good shape. If you wear shoes that give good support to your whole foot, you will put less pressure on your knees. You should start exercising slowly, at a speed you can keep up for about 15-20 minutes.

Make sure you get a good night's sleep. Go to bed and get up at regular times. During the day, keep active: Get sufficient exercise so that you can sleep well at night.

Did you know that standing, sitting and walking badly can make you look heavier than you really are? If we watched the way we sat and stood, it would improve our appearance very much. Stand in front of the mirror with your feet apart and your legs straight. Pull in your tummy, check that your ears, shoulders, hips, knees and ankles are in line with each other. You should be feeling and looking better already!

Reading Comprehension

A.Read the passage and choose the best answers.

A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying').

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings

of technical words.

Dictionaries which explain what words mean give a clear ‘definition’- of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose.

There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning.

A word like ‘right’ has several meanings in English, for example, ‘correct’ and ‘the opposite of left’. A word like ‘present’ may be used as an adjective, meaning ‘not absent’, as a noun, meaning ‘gift’ or as a verb, meaning ‘give’. Words with different meanings exist in other languages, too. A good dictionary lists all the meanings of words to help people find the meaning that they look for.

A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like ‘pajamas’, ‘bazaar’ and ‘paradise’ entered English from Persian.
